TAPESTRY SEGMENTATION PROFILE

+ WHAT IS TAPESTRY SEGMENTATION?

Tapestry Segmentation is a market segmentation system that classifies US neighborhoods based on their socioeconomic and demographic compositions. Tapestry is a system for classifying consumers and constituents using all the variables that can distinguish consumer behavior, from household characteristics such as income and family type to personal traits like age, education, or employment and even housing choices.

Tapestry Segmentation classifies US neighborhoods into 67 distinct market segments. Neighborhoods with the most similar characteristics are grouped together, while neighborhoods with divergent characteristics are separated. Tapestry Segmentation combines the “who” of lifestyle demography with the “where” of local neighborhood geography to create a model of various lifestyle classifications, or segments, of actual neighborhoods with addresses—distinct behavioral market segments.

+ WHO SHOULD USE TAPESTRY SEGMENTATION?

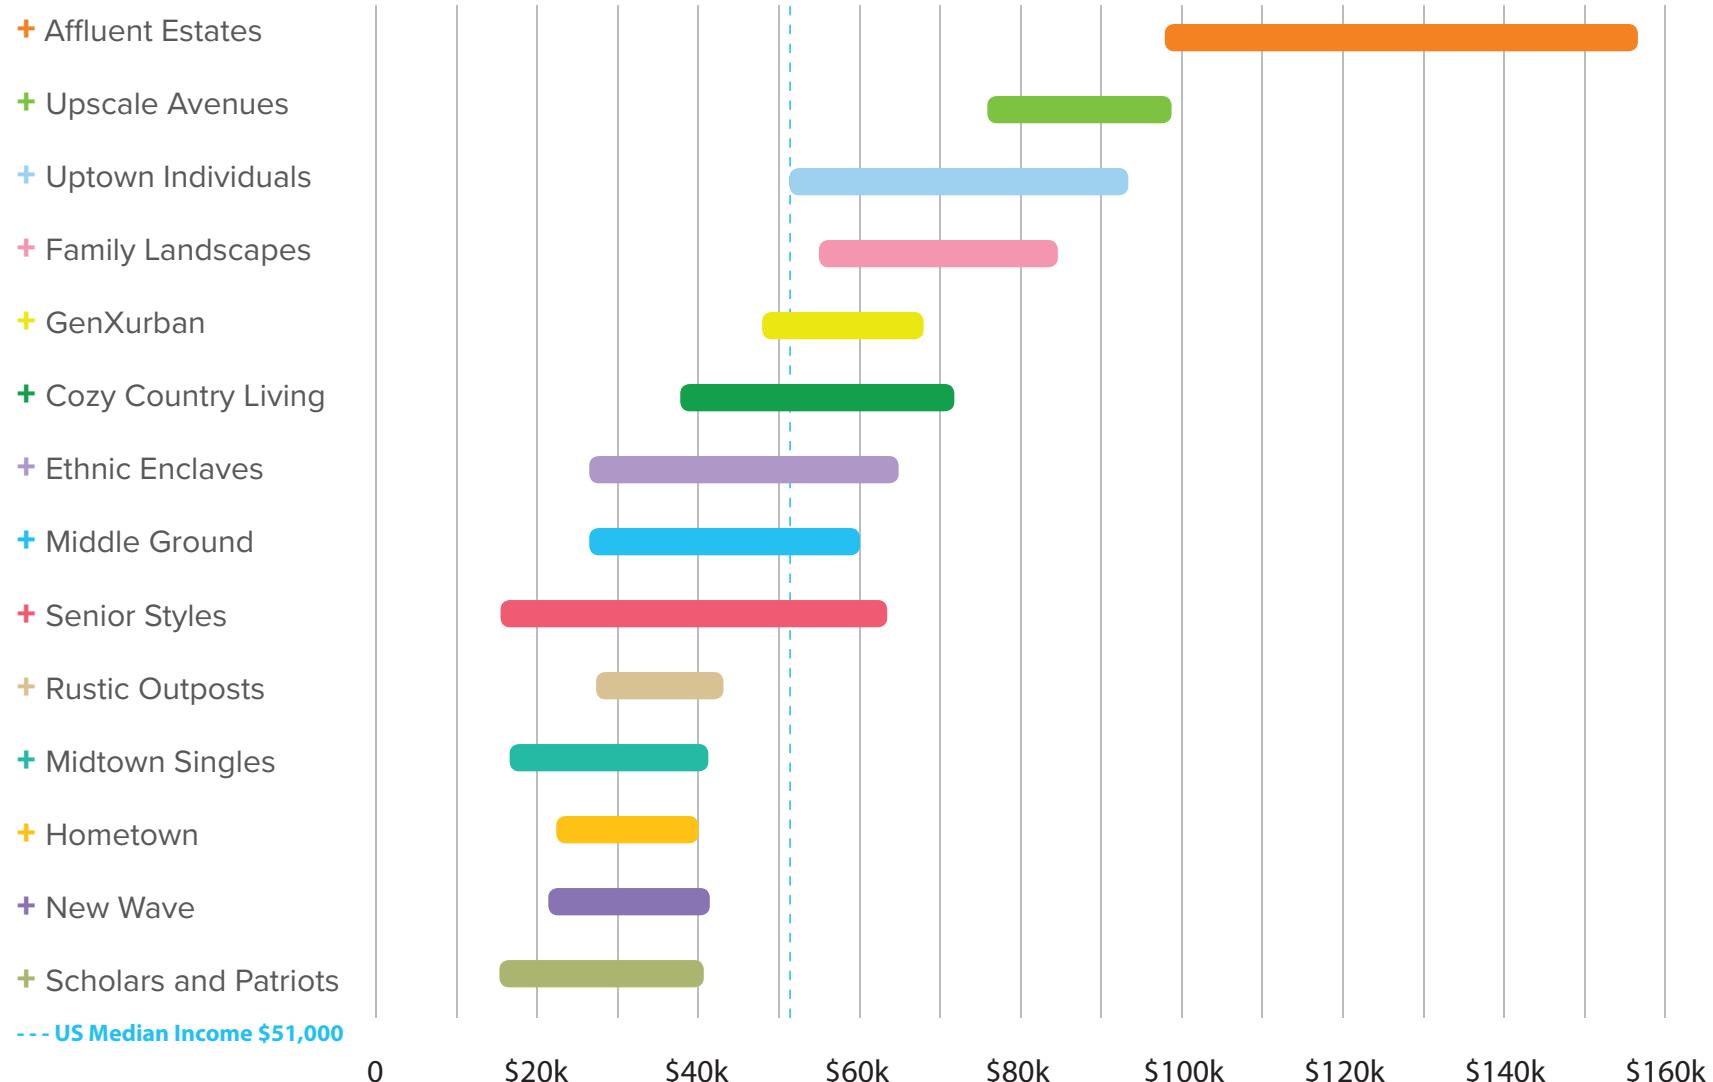

All companies, agencies, and organizations need to understand consumers/constituents in order to supply them with the right products and services and to reach them via their preferred media. These applications require a robust segmentation system that can accurately profile these diverse markets. The versatility and predictive power of Tapestry Segmentation allow users to integrate their own data or national consumer surveys into Tapestry Segmentation to identify their best market segments and reach them through the most effective channels.

+ TAPESTRY SEGMENTATION SUMMARY GROUPS

Esri's Tapestry Segmentation provides a robust, powerful portrait of the 67 US consumer markets. To provide a broader view of these 67 segments, Esri combined them into 14 LifeMode Summary Groups based on lifestyle and lifestage composition.

5E

MIDLIFE CONSTANTS

Midlife Constants residents are seniors, at or approaching retirement, with below average labor force participation and above average net worth.

Although located in predominantly metropolitan areas, they live outside the central cities, in smaller communities. Their lifestyle is more country than urban. They are generous, but not spendthrifts.

US Household // 3,043,000
Average Household Size // 2.30
Median Age // 45.9
Median Household Income // \$48,000

+ OUR NEIGHBORHOOD

- Older homes (most built before 1980) found in the suburban periphery of smaller metropolitan markets.
- Primarily married couples, with a growing share of singles.
- Settled neighborhoods with slow rates of change and residents that have lived in the same house for years.
- Single-family homes, less than half still mortgaged, with a median home value of \$141,000 (Index 80).

5E

+ MARKET PROFILE

(Consumer preferences are estimated from data by GfK MRI)

- Prefer practical vehicles like SUVs and trucks (domestic, of course).
- Sociable, church-going residents belonging to fraternal orders, veterans' clubs and charitable organizations and do volunteer work and fund-raising.
- Contribute to arts/cultural, educational, political, and social services organizations.
- DIY homebodies that spend on home improvement and gardening.
- Media preferences: country or Christian channels.
- Leisure activities include scrapbooking, movies at home, reading, fishing, and golf.

+ SOCIOECONOMIC TRAITS

- Education: 64% have a high school diploma or some college.
- Unemployment is lower in this market at 7.4% (Index 86), but so is the labor force participation rate (Index 89).
- Almost 42% of households are receiving Social Security (Index 150); 28% also receive retirement income (Index 160).
- Traditional, not trendy; opt for convenience and comfort, not cutting-edge. Technology has its uses, but the bells and whistles are a bother.
- Attentive to price, but not at the expense of quality, they prefer to buy American and natural products.
- Radio and newspapers are the media of choice (after television).

+ HOUSING

Median home value is displayed for markets that are primarily owner occupied; average rent is shown for renter-occupied markets. Tenure and home value are estimated by Esri. Housing type and average rent are from the Census Bureau's American Community Survey.

Typical Housing:

RACE AND ETHNICITY

(Esri data)

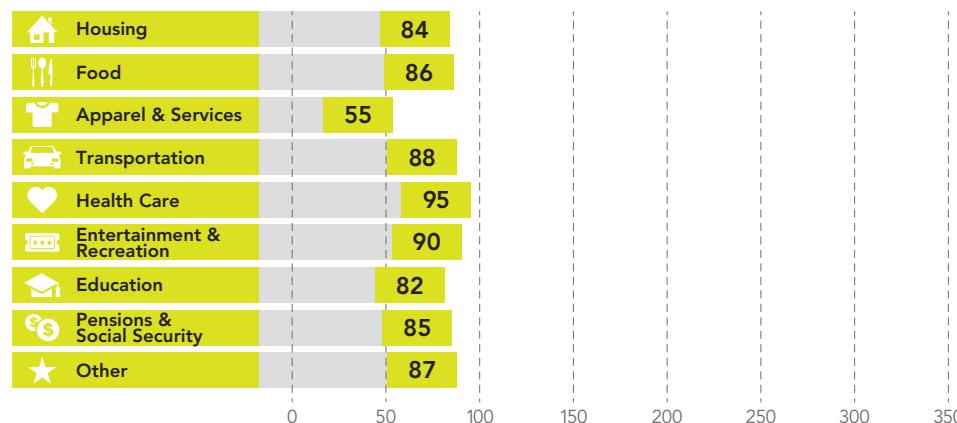

The Diversity Index summarizes racial and ethnic diversity. The index shows the likelihood that two persons, chosen at random from the same area, belong to different race or ethnic groups. The index ranges from 0 (no diversity) to 100 (complete diversity).

Diversity Index: 34.0 US: 62.1

AVERAGE HOUSEHOLD BUDGET INDEX

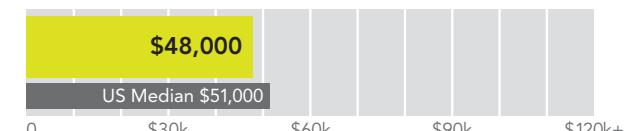

The index compares the average amount spent in this market's household budgets for housing, food, apparel, etc., to the average amount spent by all US households. An index of 100 is average. An index of 120 shows that average spending by consumers in this market is 20 percent above the national average. Consumer expenditures are estimated by Esri.

INCOME AND NET WORTH

Net worth measures total household assets (homes, vehicles, investments, etc.) less any debts, secured (e.g., mortgages) or unsecured (credit cards). Household income and net worth are estimated by Esri.

Median Household Income

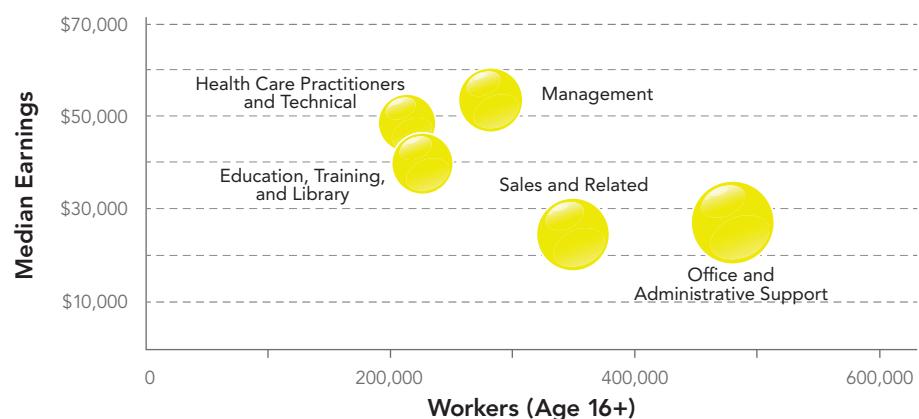

Median Net Worth

OCCUPATION BY EARNINGS

The five occupations with the highest number of workers in the market are displayed by median earnings. Data from the Census Bureau's American Community Survey.

6C

THE GREAT OUTDOORS

These neighborhoods are found in pastoral settings throughout the United States.

Consumers are educated empty nesters living an active but modest lifestyle. Their focus is land. They are more likely to invest in real estate or a vacation home than stocks. They are active gardeners and partial to homegrown and home-cooked meals. Although retirement beckons, most of these residents still work, with incomes slightly above the US level.

US Household // 1,850,000
Average Household Size // 2.43
Median Age // 46.3
Median Household Income // \$53,000

+ OUR NEIGHBORHOOD

- Over 55% of households are married-couple families; 36% are couples with no children living at home.
- Average household size is slightly smaller at 2.43.
- Typical of areas with rustic appeal, the housing inventory features single-family homes (76%) and mobile homes (16%); a significant inventory of seasonal housing is available (Index 398).
- Residents live in small towns and rural communities throughout the West, South, and Northeast regions of the country.
- More than half of all homes were constructed between 1970 and 2000.
- Most households have one or two vehicles; average travel time to work is slightly higher (28 minutes) despite a disproportionate number that work from home (Index 155).

6C

+ MARKET PROFILE

(Consumer preferences are estimated from data by GfK MRI)

- Satellite dishes and riding lawn mowers are familiar sights in these rural settings, along with multiple vehicles; four-wheel drive trucks are popular, too.
- Residents are members of AARP and veterans' clubs and support various civic causes.
- Technology is not central in their lives: light use of Internet connectivity for shopping and entertainment.
- Most households have pets—dogs or cats.
- Television channels such as CMT, History, and Fox News are popular.
- They enjoy outdoor activities such as hiking, hunting, fishing, and boating.

+ SOCIOECONOMIC TRAITS

- Nearly 60% have attended college or hold a degree.
- Unemployment is lower at 8% (Index 88), but so is labor force participation at 60%.
- Typical of neighborhoods with older residents, income from retirement and Social Security is common, but residents also derive income from self-employment and investments.
- Residents are very do-it-yourself oriented and cost conscious.
- Many service their own autos, work on home improvement and remodeling projects, and maintain their own yards.
- They prefer domestic travel to trips abroad.

+ HOUSING

6E

RURAL RESORT DWELLERS

Although the Great Recession forced many owners of second homes to sell, Rural Resort Dwellers residents remain an active market, just a bit smaller.

These communities are centered in resort areas, many in the Midwest, where the change in seasons supports a variety of outdoor activities. Retirement looms for many of these blue collar, older householders, but workers are postponing retirement or returning to work to maintain their current lifestyles. Workers are traveling further to maintain employment. They are passionate about their hobbies, like freshwater fishing and hunting, but otherwise have very simple tastes.

US Household // 1,215,000

Average Household Size // 2.21

Median Age // 52.4

Median Household Income // \$46,000

+ OUR NEIGHBORHOOD

- Housing is owner-occupied, single-family homes, with some mobile homes. A strong market for second homes, these rural areas provide affordable homes valued at 8% less than the US median home value. Over half of the housing units are vacant due to a high seasonal vacancy rate.
- In this older market, 42% of households consist of married couples with no children at home, while another 28% are single person. Married couples with children at home have older school-age children.
- Set in scenic rural locations with proximity to outdoor activities, two vehicles are essential to get around.

6E

+ MARKET PROFILE

(Consumer preferences are estimated from data by GfK MRI)

- Residents drive older domestic vehicles and prefer to spend their disposable income on gear to support their hobbies, which include freshwater fishing, hunting with a rifle or shotgun, and motorcycling.
- At home, Rural Resort Dwellers residents spend any free time working on their vehicles and maintaining their gear. They make frequent trips to their local hardware store for parts and tools. These hands-on consumers are also passionate about vegetable gardening.
- Due to their remote locations, these neighborhoods have satellite dishes. A few residents still rely on dial-up modems to stay connected. They don't access the Internet often but will make online purchases for items difficult to find in nearby stores.
- Their taste in TV shows reflects their hobbies—Animal Planet, Discovery Channel, and the DIY Network.

+ SOCIOECONOMIC TRAITS

- Rural Resort Dwellers residents are close to retirement. They've accumulated wealth and begun to shift their portfolios to low-risk assets. These active residents continue to work in skilled occupations.
- Simple tastes and modesty characterize these blue collar residents. They shop for timeless, comfortable clothing, but only when something must be replaced. They pay little attention to advertising and usually stick to the brands they know.
- They spend time with their spouses and also maintain a social calendar.

+ HOUSING

Median home value is displayed for markets that are primarily owner occupied; average rent is shown for renter-occupied markets. Tenure and home value are estimated by Esri. Housing type and average rent are from the Census Bureau's American Community Survey.

6D

PRAIRIE LIVING

Prairie Living is Tapestry Segmentation's most rural market, comprising about 1 percent of households, located mainly in the Midwest, with a predominance of self-employed farmers.

These agricultural communities are not diverse, dominated by married-couple families that own single-family dwellings and many vehicles. Median household income is similar to the US, and labor force participation is slightly higher. Faith is important to this hardworking market. When they find time to relax, they favor outdoor activities.

US Household // 1,307,000

Average Household Size // 2.50

Median Age // 43.4

Median Household Income // \$51,000

+ OUR NEIGHBORHOOD

- About four-fifths of households are owner occupied.
- Dominant household type is married-couples with no children.
- Most are single-family homes (87%) built before 1980; a higher proportion were built before 1940 (Index 225).
- Higher percentage of vacant housing units is at 16% (Index 137).
- Most households own 2 or 3 vehicles; this is the highest ranked market for owning 4 or more vehicles.

6D

+ MARKET PROFILE

(Consumer preferences are estimated from data by GfK MRI)

- Many own a truck, riding lawn mower, and ATV/UTV and have a satellite dish.
- They purchased plants and seeds in the past year for their vegetable garden, where their tiller comes in handy.
- They favor banking in person, have noninterest checking accounts, invest in CDs (more than 6 months), and have term/whole life insurance.
- They are pet owners.
- Leisure activities include fishing, hunting, boating, camping, and attending country music concerts.
- Residents prefer to listen to faith and inspirational, as well as country music on the radio.
- They read home service, fishing/hunting, and automotive magazines.
- They contribute to religious organizations and belong to religious clubs.
- Walmart is a favorite shopping stop; Subway is a favorite eating spot.

+ SOCIOECONOMIC TRAITS

- Half have completed some college education or hold a degree.
- At 4.1%, the unemployment rate is less than half the US rate.
- Labor force participation rate slightly higher at 66%.
- Wage and salary income for 73% of households plus self-employment income for 27% (Index 242).
- Faith and religion are important to these residents.
- Tend to buy things when they need them, rather than when they want them or to be trendy.
- Somewhat resistant to new technology.
- Creatures of habit when purchasing food items.

+ HOUSING

Median home value is displayed for markets that are primarily owner occupied; average rent is shown for renter-occupied markets. Tenure and home value are estimated by Esri. Housing type and average rent are from the Census Bureau's American Community Survey.

5A

COMFORTABLE EMPTY NESTERS

Residents in this large, growing segment are older, with more than half of all householders aged 55 or older; many still live in the suburbs where they grew up.

Most are professionals working in government, health care, or manufacturing. These Baby Boomers are earning a comfortable living and benefiting from years of prudent investing and saving. Their net worth is well above average (Index 363). Many are enjoying the transition from child rearing to retirement. They value their health and financial well-being.

US Household // 2,973,000
Average Household Size // 2.50
Median Age // 46.8
Median Household Income // \$68,000

+ OUR NEIGHBORHOOD

- Married couples, some with children, but most without (Index 149).
- Average household size slightly lower at 2.50.
- Found throughout the suburbs and small towns of metropolitan areas, where most residents own and live in single-family detached homes (Index 142).
- Most homes built between 1950 and 1990 (Index 129).
- Households generally have one or two vehicles.

5A

+ MARKET PROFILE

(Consumer preferences are estimated from data by GfK MRI)

- Residents enjoy listening to sports radio or watching sports on television.
- Physically active, they play golf, ski, ride bicycles, and work out regularly.
- Spending a lot of time online isn't a priority, so most own older home computers.
- Financial portfolio includes stocks, certificates of deposit, mutual funds, and real estate.

+ SOCIOECONOMIC TRAITS

- Education: 34% college graduates; nearly 66% with some college education.
- Low unemployment at 7%; average labor force participation at 61%.
- Most households income from wages or salaries, but a third also draw income from investments (Index 154) and retirement (Index 166).
- Comfortable Empty Nesters residents physically and financially active.
- Prefer eating at home instead of dining out.
- Home maintenance a priority among these homeowners.

ABOUT THE RETAIL COACH

The Retail Coach, LLC, is a national retail analytics and locational intelligence firm that specializes in all aspects of retail market analyses and recruitment, from “macro to micro” trade area assessment to actively recruiting retailers on behalf of our clients.

Through its unique Retail360® process, The Retail Coach offers a dynamic system of products and services that better enable communities to maximize their retail development potential.

C. Kelly Cofer
President & CEO
The Retail Coach, LLC

Retail360®

Providing more than simple data reports of psychographic and demographic trends, The Retail Coach goes well beyond other retail consulting and market research firms’ offerings by combining current national and statewide demographics and trend data with real-world, “on-the-ground” data gathered through extensive visits within our clients’ communities.

Every community is different, and there is no “one size fits all” retail recruitment solution. Compiling the gathered data into client-tailored information packets that are uniquely designed for, and targeted to, specific retailers and restaurants who meet the community’s needs helps assure our clients that they are receiving the latest and best information for their retail recruitment efforts—all with personal service and coaching guidance that continues beyond the initial project scope and timeline.

Our Retail360® process assures that communities get timely, accurate and relevant information. Translating that data into the information that retailers need and seek assures our clients even better possibilities for tremendous retail growth and success.

The Retail Coach –
“It’s not about data. It’s about your success.”
